D	Gransil SIW-7100	Methyl Perfluorobutyl Ether Isododecane Water Polysilicone-11 Butylene Glycol Decyl Glucoside	Grant Industries	10.00
				100.00

Operating Instructions

Mix A in the given order and stir until dispersed. Premix B and add A to B with stirring. Slowly add C to AB and stir. Add D and stir until homogeneous.

Directions for use:

Apply on moistened skin and spread evenly for 8-10seconds. Wait 1-2 minutes until fizzing ends. Rinse away with water.

The recommendations and formulations given are based on our knowledge and experience in the field of technical application.

They are, to the best of our belief, correct, but are offered without obligation.

Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

This formula has been manufactured and stability-tested using a special preservative, but has not been subjected to microbiological challenge tests.
